Secretary and the second

Business communications and remittances

Jno. G. Tinker, Editor and Prop.

Flagstaff, Yavapai County, Arizona, Ty. Dake's advertising agency, 65 Merchants Exchange, San Francisco, Cal.

APPROVED BY NOBLE.

THE report of Secretary Noble en dorses and recommends the action of Congress on the following portions of acting Gevernor Murphy's report;

1. "That an enabling act for the admisjon of Arizona as a state be passed by Congress,

2. That all the public lands within Arizona be donated to the Territory, title to be passed upon admission as a

3. That all school lands within Avizona be donated to the Territory for school purposes, and provisions be made for the selection of good in lieu of bad

This Territory requires more than ordinary assistance to enable it to overcome the great obstacles in its soil and sourrounding, and with due safeguards the above request ought to be granted.

4. "That the Apache Indians, who are now under military surveillance on San Carlos reservation be removed and the reservation opened to settlement."

This is hardly practicable, for there is no place they could be placed without a great and reasonable resistance by the white people there. An Apache Indian is not a desirable neighbor; and while the people of Arizona like him not others who have never become accostumed to him at all like him less.

5. "It is further recommended that all Apache Indians on the reservation under military guard be disarmed, and they be prohibited from the possession of rifled guns and fixed ammunition, and that it be made a felony for any person to sell or furnish the Indians such guns and ammunition, under penalties as are imposed for the sale of liquor to Indians."

This recommendation is approved. It has been necessary to keep a military officer as their agent for some years. Yet murders occur, and more than one hundred are now confined at Fort Union. It is a question of force, and the resistance to complete subjugation to law and order should be made as short as possible

It is earnestly urged that if the Indians are not removed that the limits the mineral and coal lands on the reservation be segregated and made available.

This is approved. But it is believ ed to be impossible without an outbreak, unless proceded by disarment.

It is requested that congress appropriate fands for the erection of buildings to use in the public service in

It is recommended that the provision of what is known as the "Idaho test oath" be made applicable in Ariz-

That the act before Congress which provides for a fourth judge in Arizona be passed.

That the salries of the present judges in Arizona be increased to \$5,000

That appropriations be made by Congress to pay the Governors and secretaries of Territories the amounts allowed them by law under section 1845, Revised Statutes of the United States, 1878.

our be increased to \$10 per day.

That Congress appropriate a reasonable sum for artesian well-boring in fo.ce, would soon settle the question. the Territory.

That all the public lands within the Territory be surveyed.

The requests from 7 to 14 inclusive, are submitted upon the very able argument of the Governor, who the secretary believes is exceedingly well qualified to determine what the Territery must require.

Laws passed by the 15th Legislature not

passed by the Fifteenth Legislature and tetter's Almanac. This valuable medtaken to the Governor for signature tetter Company, Pittsburg, Pa., under
